Greys GX 500 Fly Reel

\$85.00

The GX500 reel features a new system of friction fit identification pins that allows you to clearly mark the spool with line size, density, sink profile and core type, allowing you to select the correct line at a glance.

Ported arbour design and a superb Greys drag system makes this a tough but extremely light reel. 4/5/6 and 6/7/8 weights.

Features

- Narrow width, large arbour design for fast, level retrieve
- Ported arbour design to reduce weight
- Tri-grip handle design
- 4/5/6 size and 6/7/8 size spools interchangeable with equivalent GX700 model
- Captive spool release mechanism
- Centralised twin Rulon disc drag system with twin dog drive
- Tool free left to right conversion
- Counter balanced spool
- Not recommended for saltwater use
